How can parents help our children develop good digital habits?

- Good digital habits start from the home. Supporting our children early in this process will help them greatly as they grow older.
- Based on MOH's Guidance on Screen Use for 7-12 year olds, parents are encouraged to:
 - Use parental control settings to monitor and ensure children access to age-appropriate content;
 - Develop a timetable or screen use agreement to balance screen time and family bonding and;
 - Avoid screen use during mealtimes and one hour before bedtime.
- Co-viewing with our children is also important. Knowing what our children are viewing will create more opportunities for conversations.

For more information, you can scan here for MOH's Guidance on Screen Use
